## Sign Installer Technicians

### Description

The ideal candidate will have experience assisting with the installation of internally illuminated channel letters, building and pole signage. Candidates must be mechanically inclined, take pride in their work, enjoy travel and have an attention to detail.

### Responsibilities

- Candidates must be willing to travel extensively across the nation to assist in the installation of finished client signage products.
- Ability to effectively assist with multiple installation projects for many of the top brands in the retail, restaurant, hospitality and financial service markets.
- Attention to detail to ensure Anchor's stringent production quality standards are maintained.
- Excellent customer service, oral and written communication, and team building skills.

### Qualifications

- A pre-employment DMV record search, background check and drug screen are required.
